## Travel & Information Guide

**3 Days. 50 Miles. Closer to a Cure.**

**September 11-13, 2009**

**Cape Cod, Massachusetts**

## Welcome!

This is the Travel and Information Guide. It is meant to give you all the information you need to get to the MS Challenge Walk, what to bring with you, and what to do while you're there.

The **MS Challenge Walk**® challenges us to move beyond our limits, both as individuals and as a group. It extends beyond the challenges of the training, the fundraising, and the physical stress. The MS Challenge Walk is about moving beyond our past experiences and into a context of possibility and reality.

- The possibility that we can walk 50 miles in three days.
- The possibility that we can raise a significant amount of money that will make a meaningful impact on people living with multiple sclerosis.
- The reality that we can work together as a team, in complete support of one another towards finding a cure for MS.

Over the three days, expect the unexpected. Expect people to offer you help. Expect people to ask you how you are doing. Expect people to support you and cheer you on in a way you have never before experienced. And, expect to experience yourself as a hero, a supporter, and a team working together for a common objective. The fundamental understanding of the MS Challenge Walk is the realization that we can work as a team, in total support of one another. In this way, we realize that the well being of the group is as important as the well being of the individual.

The MS Challenge Walk is a demonstration of responsibility and integrity, and a testament of the impact that can be made if people join together towards a common goal: to create a world free of multiple sclerosis.

## SAFETY

Our first priority is your safety. The following are state laws and other points regarding your safety and walking routine. Please remember them. Embracing these rules may save your life.

Know and obey all traffic signals, signs, markings, laws, and regulations. Stop and scan for traffic at all stop signs.

- Always walk through intersections predictably and with awareness. In most vehicle pedestrian accidents, motorists say they never saw the pedestrian, or did not see him/her in time to avoid the collision.
- Always stop and look left-right-left before crossing an intersection. If vehicles are present, make eye contact with the drivers. Do not assume they will automatically give you the right of way, even though it may be the law.
- Walk within the obvious walking area, such as a sidewalk. Avoid bunching into large groups that could spill out on the roadway, causing accidents.
- Be alert to hazards such as glass, broken cement, large cracks, sand, dogs, etc. It is also courteous to point these obstacles out to those walking with you.

**WALKER/CREW ID & EMERGENCY MEDICAL INFORMATION MUST BE WORN THROUGHOUT THE EVENT**

## MEDICAL EMERGENCIES

IF YOU SEE ANOTHER PERSON GET HURT:

- Notify an event official, or if you have a cell phone call 911 depending on the severity of the injury.

To keep the MS Challenge Walk safe, the Chapter must address policies, procedures, and violations. You may be expelled from the National Multiple Sclerosis Society's MS Challenge Walk at any time for violating any of the following policies:

Listen and obey event officials.

Officials may close the route for the day or temporarily due to inclement weather.

## VEHICLES

- Only official vehicles are allowed entry to the Cape Cod Sea Camps and rest stops, because of limited parking space and respect for property.
- For safety reasons, you should strongly discourage friends and family from driving along the route. Pulling over or honking at walkers may create a safety risk.

- For safety reasons, the MS Challenge Walk will include systems and procedures that will allow us to keep track of Walkers.

## LEAVING THE MS CHALLENGE WALK

- Walkers who wish to leave the MS Challenge Walk, or who are expelled, are given information on transportation home. The transportation and costs are the responsibility of event participants, not that of the National MS Society.

## HELPFUL HINTS REGARDING YOUR LUGGAGE

- Make sure there is a bright ribbon or distinguishing marking so that your bag is easy to spot. (Many people have identical black bags.)
- Do not hang items from your bag, as they will fall off.
- Make sure everything is safely tucked inside your luggage.

## HOW TO PACK

- Get two-gallon Ziploc bags, place each day's walking apparel in a separate bag, and label it. This saves time in camp, organizes your bag, keeps things dry, and ensures nothing is left out. Place toiletries in another bag, and camp clothes in one more.
- Use pre-packed Ziploc bags to manage the contents of Change of Clothes bag.
- If you plan to carry a waist-pack, it is a good idea to train with it loaded with the same items you will carry on the actual Challenge.
- No bungee cords. (Stretchy cords that may spring loose and injure the volunteers who load your luggage.)
- A duffle bag is the best organizer. One that is waterproof or water-resistant is highly recommended.
